Preface

1. Customer & TESS Definition

TESS Innovation Sdn Bhd is hereinafter referred as “TESS” of the other part in this document.

2. Document Confidentiality

This document contains information that is proprietary to TESS and The Customer. This document, or any part thereof, shall not be copied, reproduced, translated or reduced to any electronic medium or machine readable form or disclosed to any third party without the prior written consent or authorization of TESS and the Customer.

3. Purpose of Document

The purpose of this document is to clearly guide user to perform day by day operation

4. Intended Audience

- Project team from TESS
- Project team from The Customer

5. Document Control

This document is subject to change control. All changes to this document shall be documented and distributed as “Release Version”. It will consist of the following:-

- Full replacement of the document; or
- Full replacement of a section in the document; or

- An addendum to the document.

Each revision will be assigned with a unique “Release Version” number and date. All pages distributed within a Document Release Notice will have the appropriate Release Version and Release Date indicated.

6. Screenshots

All sample screenshots as attached are for the reader’s viewing purpose only. The actual screen displayed in the [iSEM.ai](#) system shall be based on the specification of The Customer’s as agreed upon.

7. Disclaimer

- All advice given or recommendations made in this document are made in good faith on the basis of the information provided and otherwise generally available or known to TESS at the time of writing.
- No advice given or statements or recommendations made shall be in any circumstances constitute or be deemed to constitute warranty by TESS as to the accuracy of such advices, statement and recommendations.
- Subject to the contents of the Supply of Software, Licensing and Service Agreement executed, TESS shall not be liable for any loss, expense, damage or claim arising out of the advice given or not given or statements made or omitted to be made in connection with this document.
- **This document is **subject to updates**. Please note that it may be revised periodically within the same version to reflect any changes.

8. Product Version

This document is based on product version 1.3. Any other product version may not be relevant to this specific document content and its information.

Abbreviation	Definition
ODD	Ongoing Due Diligence
CPM	Client Profile Management

Overview of Client Profile Management - ODD Red Flag

1. About Portfolio □ Client Profile Management - ODD Red Flag

The Portfolio Ongoing Due Diligence (ODD) interface will offer an overview of the client's screening red flags, along with a detailed listing of these red flags. Users can utilize this interface to conduct further investigations on the client's profile periodically. Figure 1.0 below serves as a sample interface for reference. There are 5 sub-

sections for the user to view and investigate the ODD Red Flag: Detail, KYC, ODD History, Risk History, and Insights.

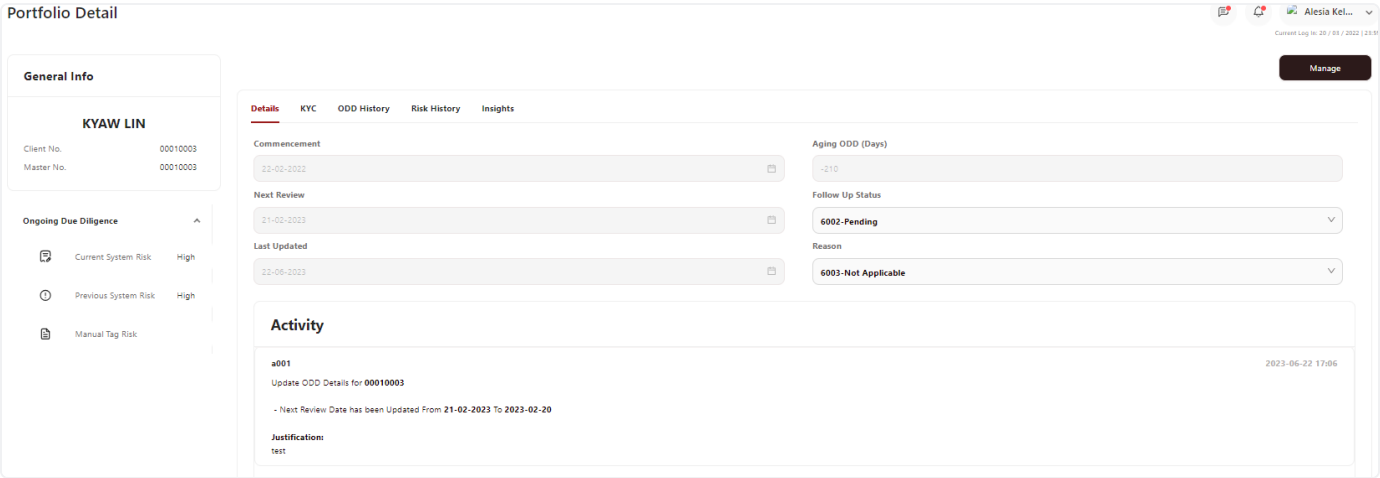

Figure 1.0: ODD Red Flag

2. Client Profile Management - ODD Red Flag

2.1 ODD Portfolio - General Info

The general info panel on the left side on the page.

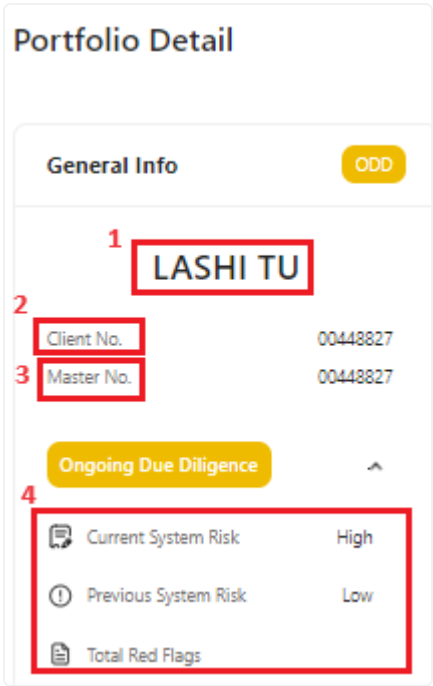

Figure 2.0: General Info (ODD Red Flag)

The information displayed as explained in the table below:

#	Name	Description
1	Client's Name	Display the client's full name.
2	Client No.	Display the client's CIF ID or other golden unique number.
3	Master No.	Display the primary number (CIF no /ID no /etc.).

4	ODD Information	Display the total number of cases and red flags on the Watchlist Monitoring module: 1. Current System Risk 2. Previous System Risk 3. Manual Tag Risk
---	-----------------	--

2.2 ODD Portfolio ▢ ODD Details List

Allow users to view the details of red flags generated by the Ongoing Due Diligence (ODD) EOD process.

2.2.1 ODD Details List

The screenshot shows the 'Details' tab of the ODD Details List. It contains several fields and sections:
