1. Portfolio

About Portfolio:

1. Provide holistic view of client information and relevant red flags details for investigation (before reporting a case)
2. The consolidation of client to their own portfolio and generating master number will be perform during End-of-Day (EOD) process.
3. Onboard Monitoring and Tx Screening are not included in Portfolio due to the nature of the functionality.
 - Onboard Monitoring has a single process flow with a single red flag per case. Therefore, cases can directly be created without having to go through Portfolio.
 - Tx Screening involves unique data which complicates mapping of the same person.
