Overview of Watchlist Red Flag

1. About Portfolio Watchlist Red Flag

The Portfolio Watchlist Monitoring interface will offer an overview of the client's transaction red flags, along with a detailed listing of these red flags. Users can utilize this interface to conduct further investigations on the client. Figure 1.0 below serves as a sample interface for reference. There are 3 sub-sections for the user to view and investigate the Watchlist Monitoring Red Flag: Details, KYC, and Case History.

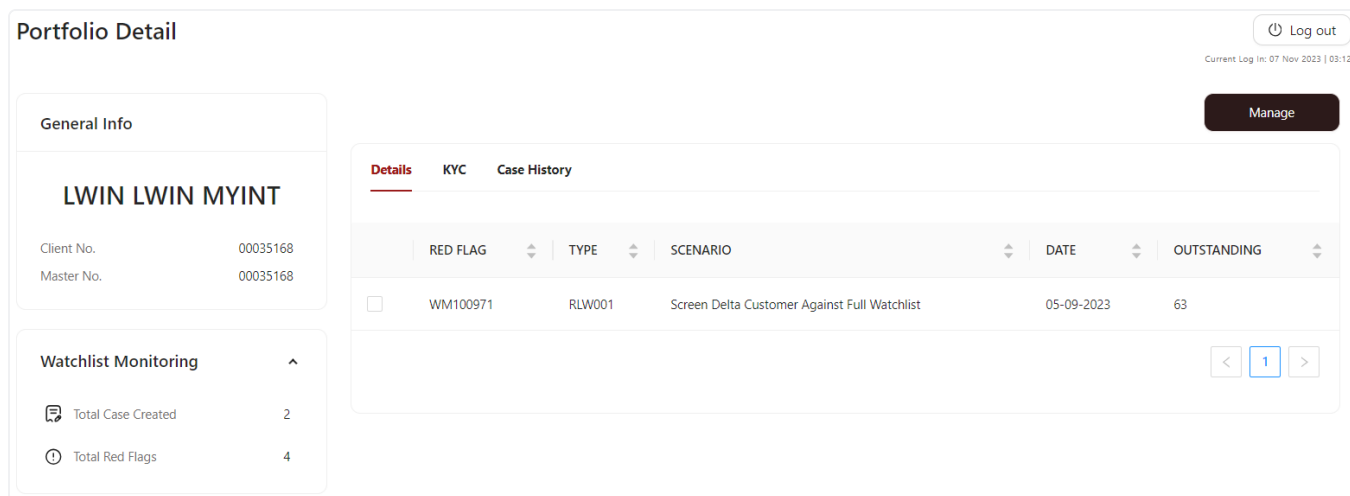

Figure 1.0: Watchlist Monitoring Red Flag Interface

2. Watchlist Red Flag

2.1 Watchlist Red Flag - General Info

The general info panel is on the left side of the page.

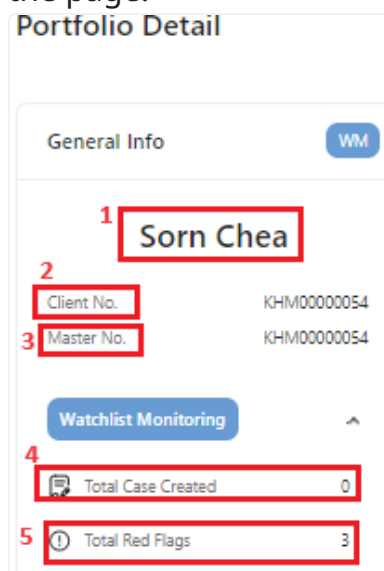

Figure 2.0: General Info - Watchlist Red Flag

The information display is explained in the table below:

#	Name	Description
1	Client's Name	Display the client's full name.
2	Client No.	Display the client's CIF ID or other golden unique number.
3	Master No.	Display the primary number (CIF no /ID no /etc.).
4	Total Case Created	Display the total number of WM since inception (count all status).

5	Total Red Flags	Display the total number of WM red flags since inception (count all statuses).
---	-----------------	--

2.2 Watchlist Red Flag ▢ Red Flag Details List

Allows users to view the details of red flags generated by the Watchlist Monitoring EOD process.

2.2.1 Red Flag Details List

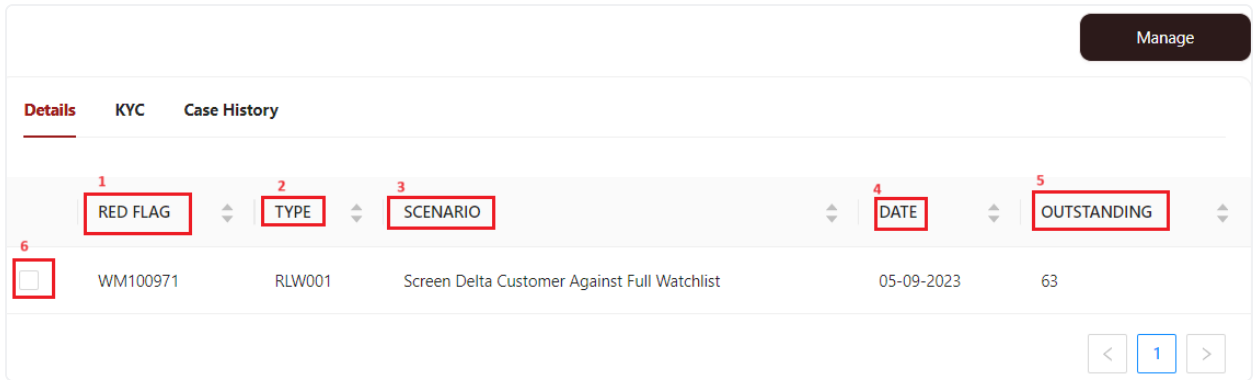

Figure 2.1: Red Flag Details

The display information is in the table below:

#	Name	Description
1	Red Flag ID	Display the module red flag primary key ID number.
2	Scenario Type	Display the screening rule scenario type. The data will be read from the watchlist monitoring rule parameter setting.
3	Scenario	Display the screening rule scenario in full description.
4	Date	Display the date that a red flag is generated.
5	Outstanding	Display the total days of red flags open and outstanding. (Present date minus date red flag is generated)
6	View	Red Flags Match Record: Allow users to view details of the red flags that hit against the transaction record.

2.2.2 How to Investigate WL Red Flag?

This section outlines how users can conduct investigations against Watchlist red flags. It involves viewing details of the red flags that hit against the screening record.

Steps to Investigate Match Record - WL

1. Click the box for any red flag list in the details section as desired.
2. Then, the result of red flag details will be popped out and there are nine (9) panels of the information

that are known as **"Match Record."**

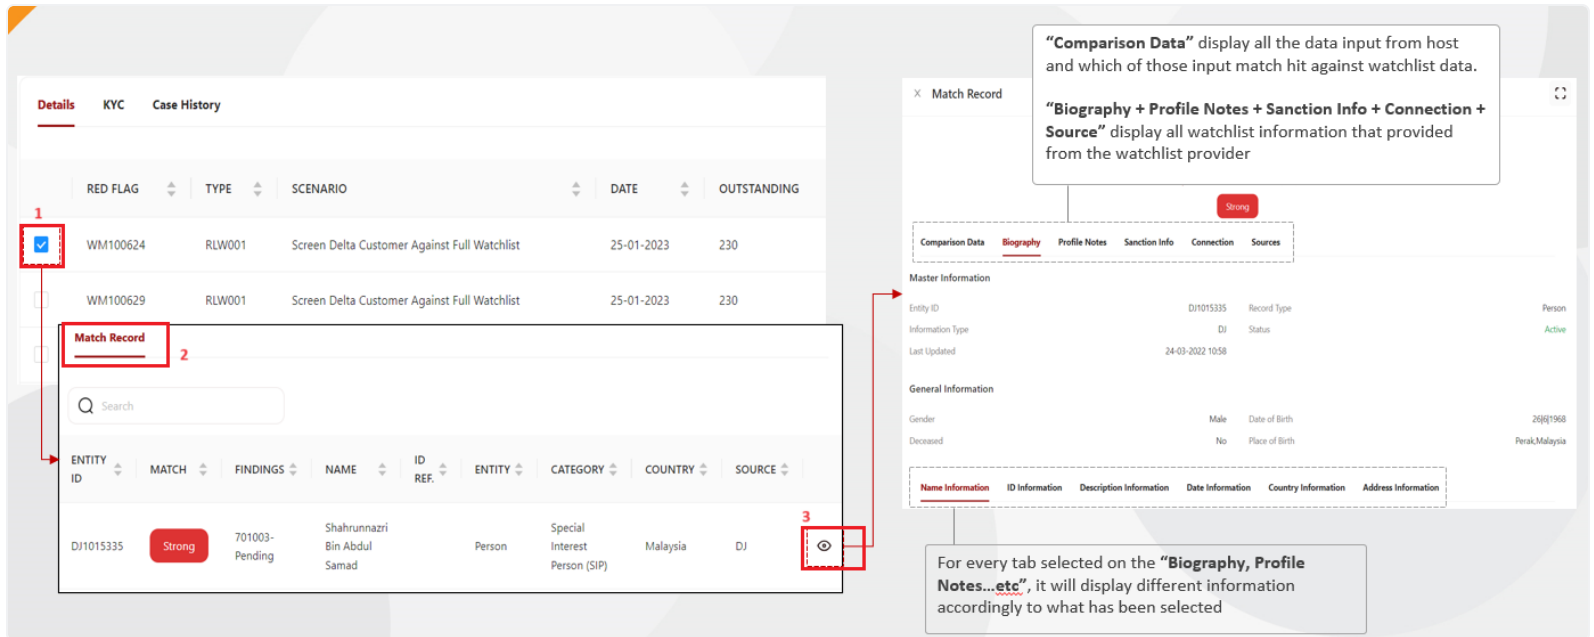

Figure 2.2: Watchlist Monitoring Details Process Flow

3. If the user clicks the **"Eye"** button, they will get to view the match record in further detail on the pop-up screen as referred to in the figure above.

2.2.2.1 Match Record

This section is displayed after clicking the **"Eye"** button to view further details in the match record pop-up screen. The display information as the figure as shown in the table below:

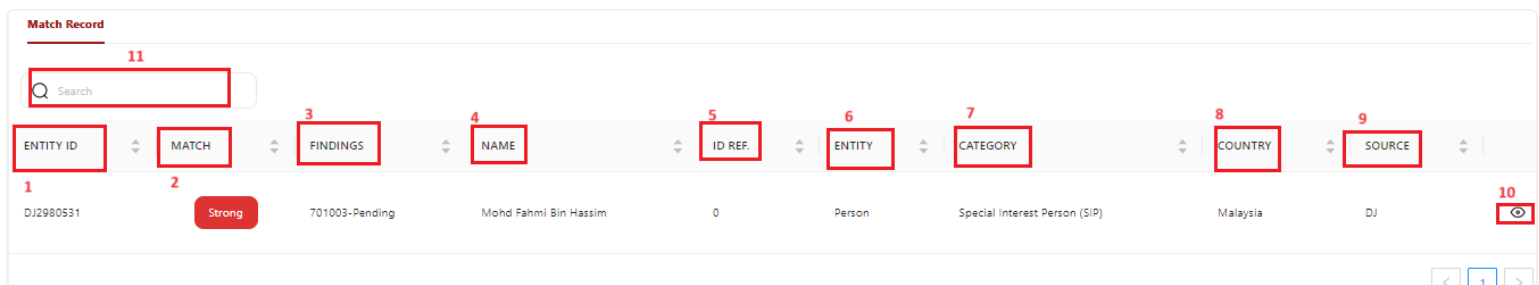

Figure 2.3: Match Record

The display information is in the table below:

#	Name	Description
1	Entity ID	Can come from various watchlist providers or self-generated for internal watchlist upload.
2	Match	Accuracy of the watchlist result (Strong/Weak).
3	Findings	Findings of the investigation (Relevant/Non-relevant).
4	Name	Display the client's full name.

5	ID Ref	The watchlist individual / corporate (ID number, corporate registration no, etc.).
6	Entity	The watchlist is individual/corporate type (Individual/Corporate/Non-Individual).

4	Sanction Info	Display the sanction information on the watchlist individual/corporate.
5	Connection	Display the network relationship on the watchlist individual/corporate with other members.
6	Sources	Display the collective sources on the watchlist individual/corporate.

2.3 Watchlist Red Flag □ KYC

This section allow users to view the client's information. The client information availability is **subject based by**:

- Data provided by the organization
- Data mapping configuration setup under General setting

2.3.1 How to View KYC Information?

The following are a few tabs of KYC details, shown and explained below as examples of configured data mapping.

Steps to view KYC Information:

The screenshot illustrates the process of viewing KYC information. At the top, a table lists client details. A red dashed box highlights an "Eye" icon in the STATUS column, with a callout box stating "Eye display more information details." Below the table, a modal window titled "KYC Detail" is open, displaying various information sections:

- 1303-Name information**
 - Name: ABIRAMY A/P VIJAYAN (Native Name)
 - First Name: ABIRAMY A/P VIJAYAN (Middle Name)
 - Last Name:
- 1303-General information**
 - 1304-First ID**
 - Entity Type: ID Type: 0
 - ID Number: 860918565620 ID Issue Date: 19860918
 - ID Verify Date: 0 ID Issue Place: MY
 - ID Expiry Date: 19000101
- 1303-Master information**
 - Master Number: 100000013
 - CIF Number: 100000013
 - Company Code: 1
 - CIF Status: 0
 - Organization Number: 1
- 1303-Risk Profile Information**
 - CIF Opening Branch:
 - Joint Status: 0
 - CIF Creation Date: 22010101
 - CIF Updated Date: 0

Figure 2.5: How to View KYC Information

- 1. To view KYC information, users can click on the **"KYC"** tab.
- 2. Under this tab, it displays five (5) panels whereby each one of them also contains their own set of information (refer to Figure 2.6 for further information):

Red Flags KYC Case History Risk History Insights						
Customer Account Address Relationship & UBOs Company Relationship						
Name	ID Reference	Nationality	DOB	Gender	Status	Action

2.4 Watchlist Red Flag □ Case History

This section allows users to view clients who have had past historical cases built into their portfolios.

2.4.1 Case History

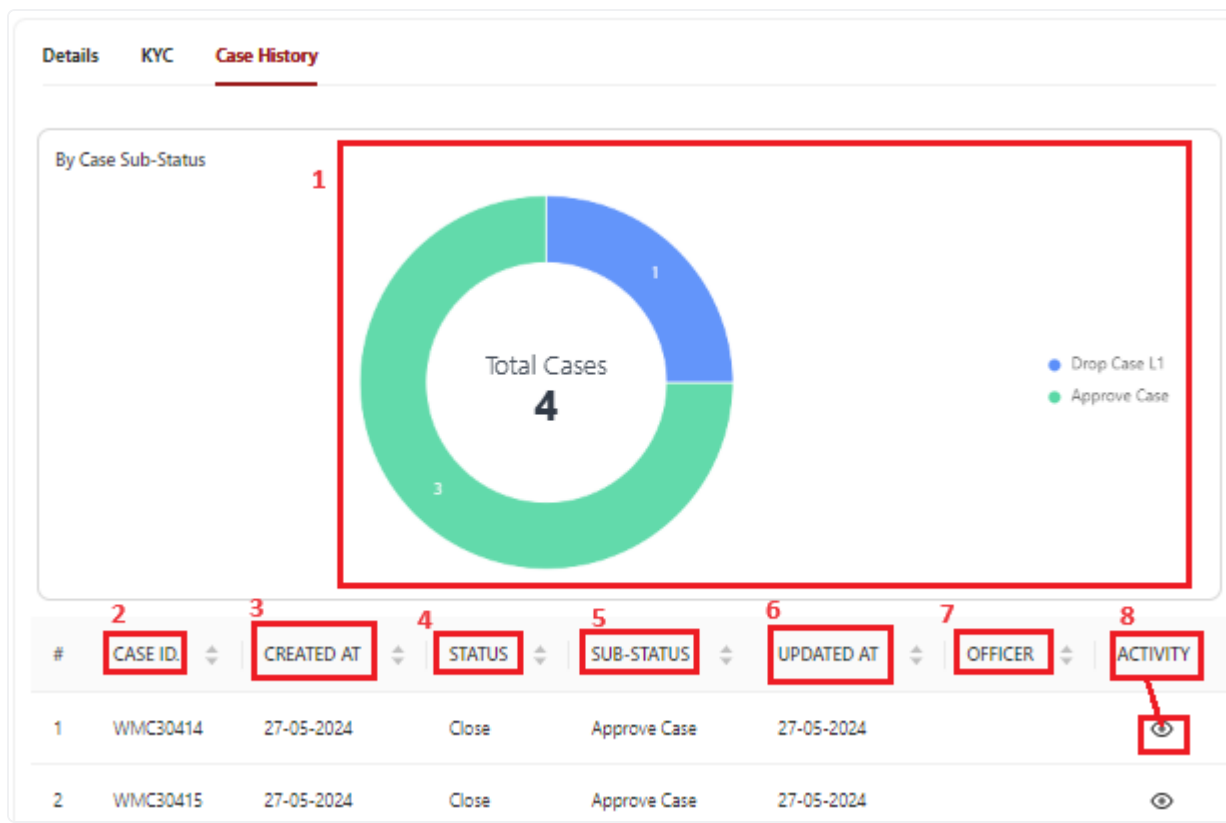

Figure 2.12: Case History Details

The display information is in the table below:

#	Name	Description
1	Case History Pie Chart	Display the total number of closed cases.
2	Case ID	Display module case primary key ID no.
3	Created At	Display the date that the case was first created and escalated for review.
4	Status	Display the final status of the case.
5	Sub-Status	Display the final sub-status of the case.
6	Updated At	Display the case history last changed at.
7	Officer	Display the person who manages the case.
8	Activity	- Collective investigation activity surrounding the cases. "Eye" icon View: Case History Activity.

2.4.2 Case History Activity

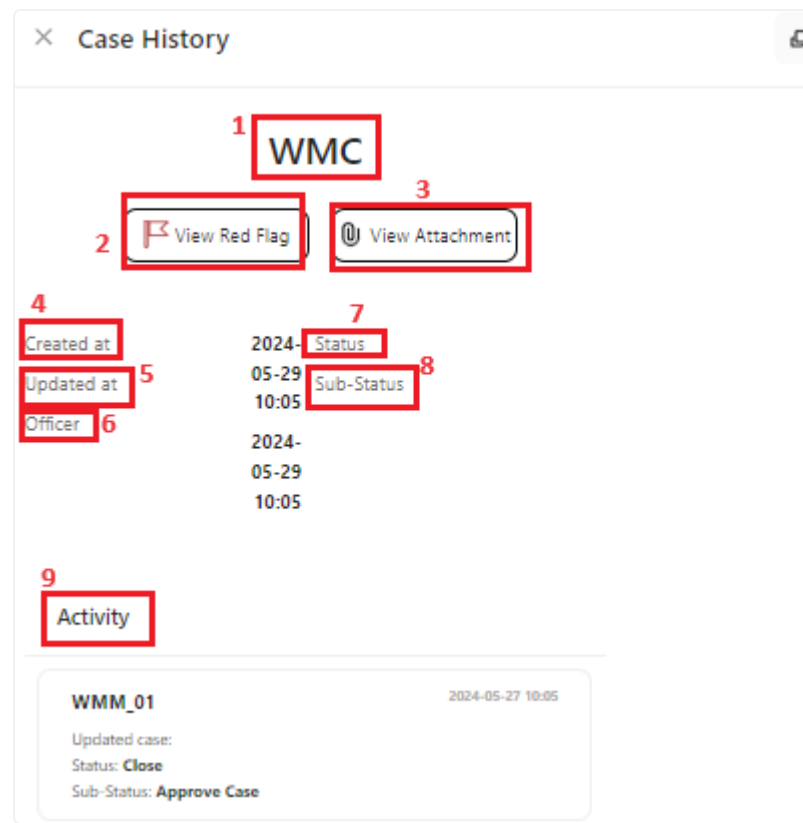

Figure 2.13: Case History Activity

The display information is in the table below:

#	Name	Description
1	Name	Display the client's full name.
2	View red flag	Allow to view red flag cases.
3	View attachment	Allow to view supporting documents of case history.
4	Created at	Display the date that the case was first created and escalate for review.
5	Status	Display the final status of the case.
6	Updated at	Display the date that the case investigation is last updated.
7	Sub-status	Display the final status sub of the case.
8	Officer	Display the final person who manages the case.
9	Activity	Display the activity log of the case.

2.4.3 How to Manage Case History

This section outlines the steps for the user to perform case historical management during the watchlist red flags investigation.

Steps to Manage Case History

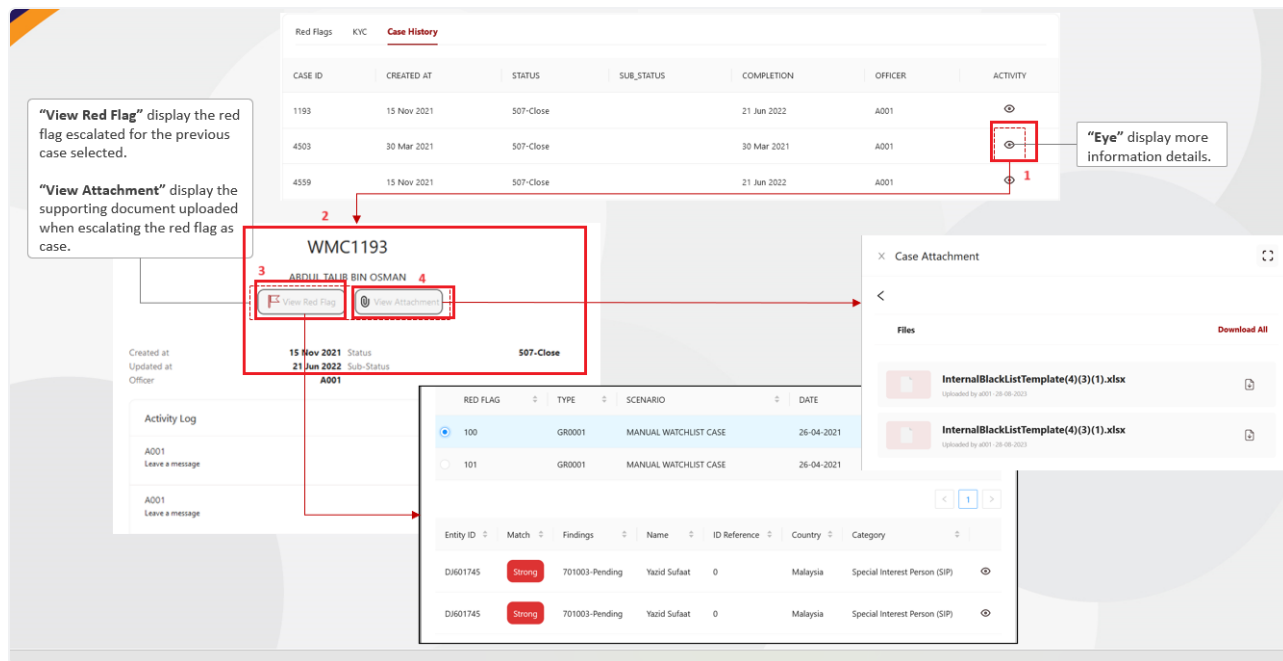

Figure 2.14: Case History Process Flow

1. Click "**Eye**" to see more information details on the history of the red flag cases for Watchlist.
2. The case history activity screen will pop out for the user to manage the case for the Watchlist. The user has options where they can view the red flag cases or View case attachments.
3. If the user wants to view the red flag cases, click on the "**View red flag**" button and it will display the red flag that has been escalated for the previous case selected.
4. Also, if the user desires to view the supporting document when escalating red flag cases, the user can click on the "**View Attachment**" and the case attachment for all supporting documents uploaded will be shown there.

2.5 How to Manage Red Flags

1. For the Watchlist Monitoring Red Flag, the user can manage the Red Flag for each Client by these three (3) actions that are known as Scenario, which is:
 - Add New Case
 - Add to Existing Case
 - Drop Red Flag
2. The action button to manage the red flag will automatically select all the red flags when performing the actions. Users are not able to de-select the red flags to ensure proper investigation is being done without missing any red flags.
3. The action button to manage red flags only displays red flags that belong to the client master number and ID selected.
4. The action button to manage red flags only displays red flags which are open or yet to be assigned to a case.

- The action button to manage red flags allows user to confirm their action before creating a case. A confirmation wizard flow will allow users to select yes or no to confirm their action.

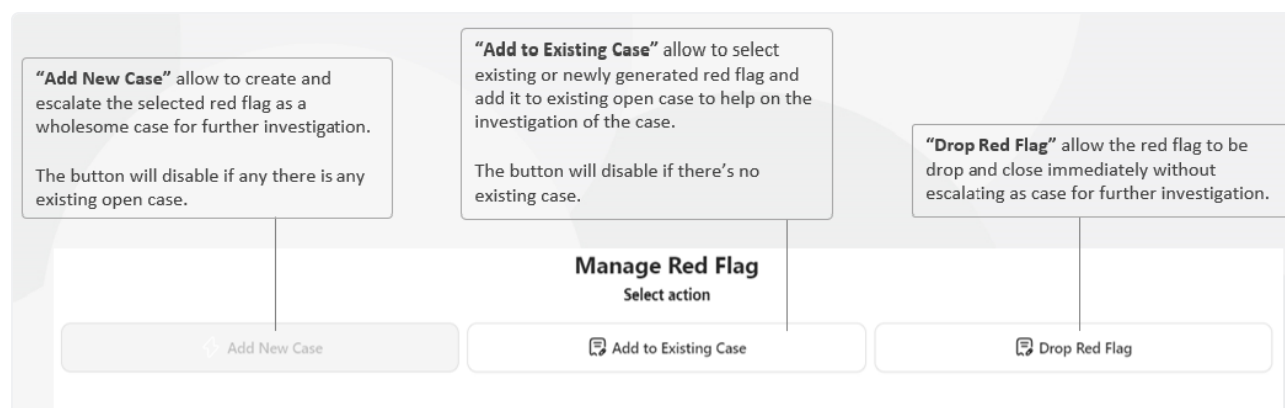

Figure 2.15: Manage Red Flag Actions

2.5.1 How to Manage Red Flag - Watchlist Red Flag

This section outlines how users can manage watchlist red flags.

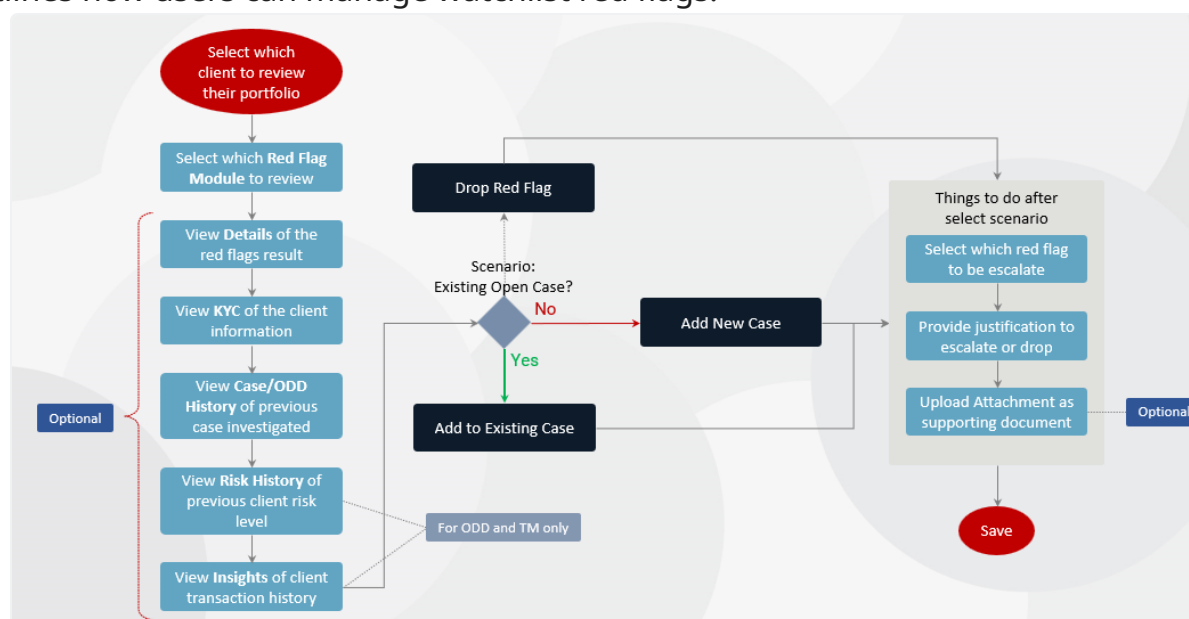

Figure 2.16: App Process Flow to Manage Watchlist Red Flag

2.5.2 How to Add New Case

Steps to Add a New Case:

- To create a new red flag case, the user should select one or more red flag checkboxes that they want to report (multiple red flags can be selected under the same client). Then, click on the **"Add New Case"** button as shown in the figure below.

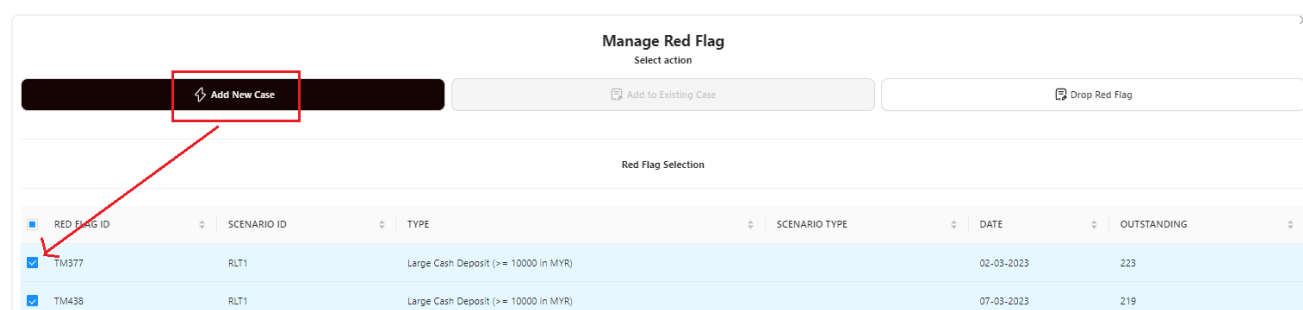

Figure 2.17: Red Flag Selection

2. After selecting the red flags, the user will proceed to the next steps, as shown in the figure below. The user may need to provide a reason in the justification box* for escalating the red flags as a case.
3. If there are any supporting documents to include, the user can upload them in the provided box. Finally, click the **"Save"** button.

Notes:

- The new red flag that has been escalated as a Red Flag case will be displayed in the Transaction - Case Workflow within the system.
- *The justification must be filled in. but if the justification box is empty, a notification will appear that the justification box is not filled in yet after clicking **"Save"**.
- The attachment file size will be based on the configuration set under Setting – General: Application Site. The attachment features only allow the following file types:
 - a. Jpg
 - b. Png
 - c. Gif
 - d. Txt
 - e. Doc and Docx
 - f. Xlx and Xlsx
 - g. Pdf

The screenshot shows a web form for escalating red flag cases. It consists of three main sections: a 'Justification' text area, an 'Upload Attachments' area with a file upload icon and text, and a large red 'Save' button at the bottom. Three callout boxes provide additional information: the first points to the 'Justification' label and text area, stating it allows input reasoning and has no character limit; the second points to the 'Upload Attachments' label and icon, stating it allows file selection and drag-and-drop with no limits; the third points to the 'Save' button, stating it will escalate all selected red flags with their justification and attachments into the case's module for further investigation.

Justification

Write Something

Upload Attachments

Drop files [browse](#) through your machine

Save

"Justification" allow the input reasoning on escalating the red flags as a case for further investigation.

There's no minimum character limit for input.

"Upload Attachment" allow to upload supporting document that assist on the case investigation.

The upload attachment allow selection of file and also drag & drops on the files with no limit of number on the document to be upload.

"Save" will escalate all the selected red flags with its justification and uploaded attachment into the case's "module" for further investigation by next level officer.

Figure 2.18: Escalate Red Flag Cases

2.5.3 How to Add to Existing Case

Steps to Add to the Existing Case:

- 1. Click on the "Add to Existing case" button, and then select any red flag box, as shown in the figure below, to escalate for further investigation.

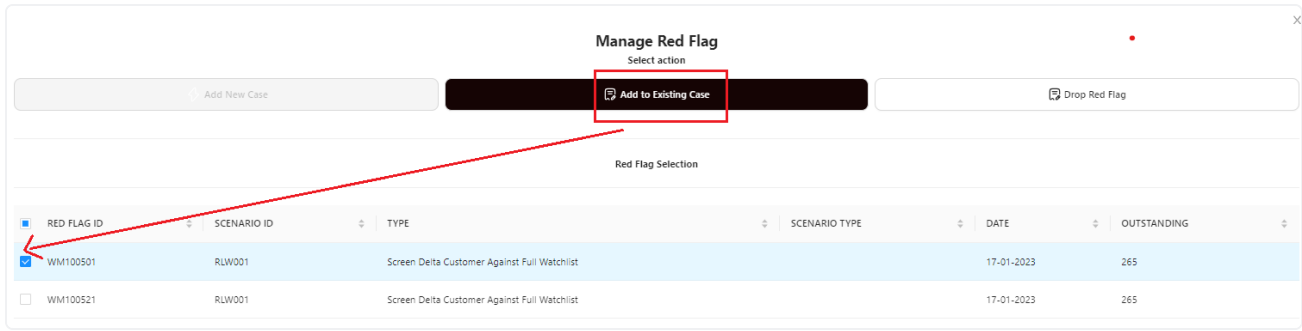

Figure 2.19: Red Flag Selection

- 2. Next, after selecting the red flag from the red flag selection (a), the user needs to click on any red flags (b) in the case selection section below, as shown in the figure.

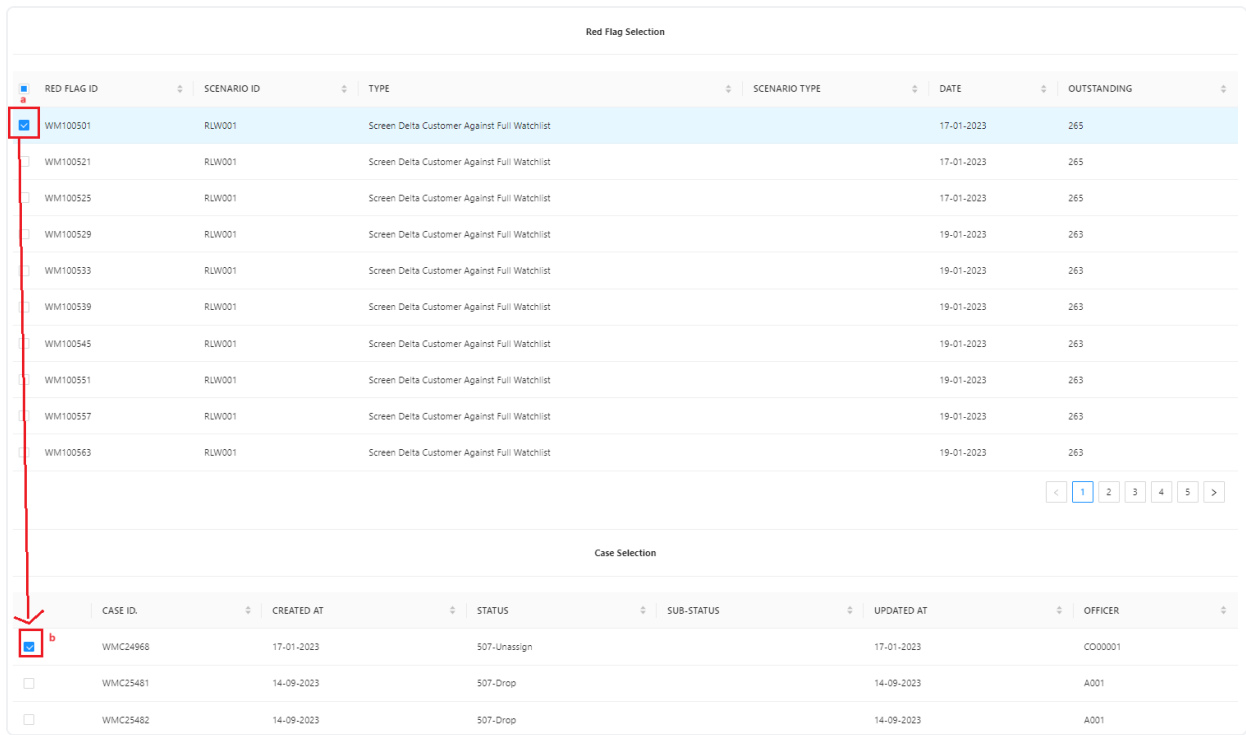

Figure 2.20: Case Selection

- 3. The user must provide a reason in the justification section below. If any attachments are serving as supporting documents for the case, the user can upload them, and lastly, click the "Save" button.

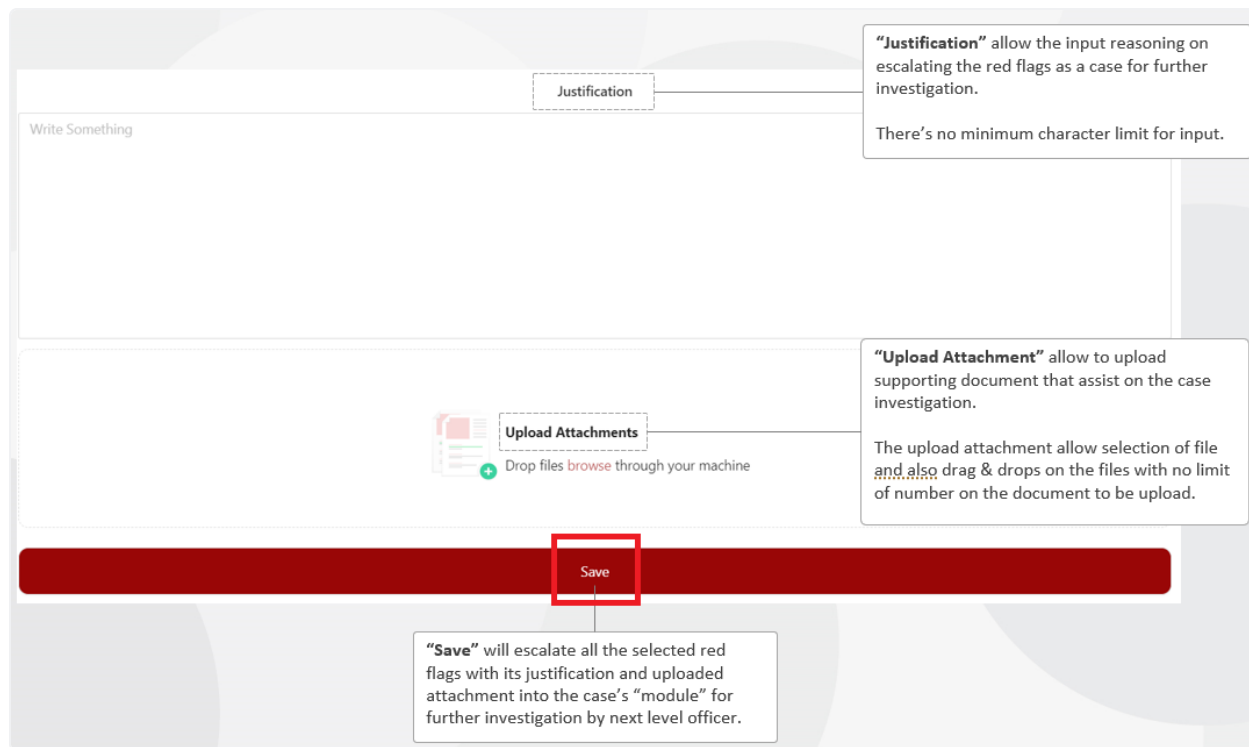

Figure 2.21: Escalate Red Flag Cases

2.5.4 How to Drop Red Flag

Steps to Drop a Red Flag:

1. To dismiss red flag cases, the user should click on the **"Drop Red Flag"** button (a), and then select any red flag (b), as illustrated in the figure below:

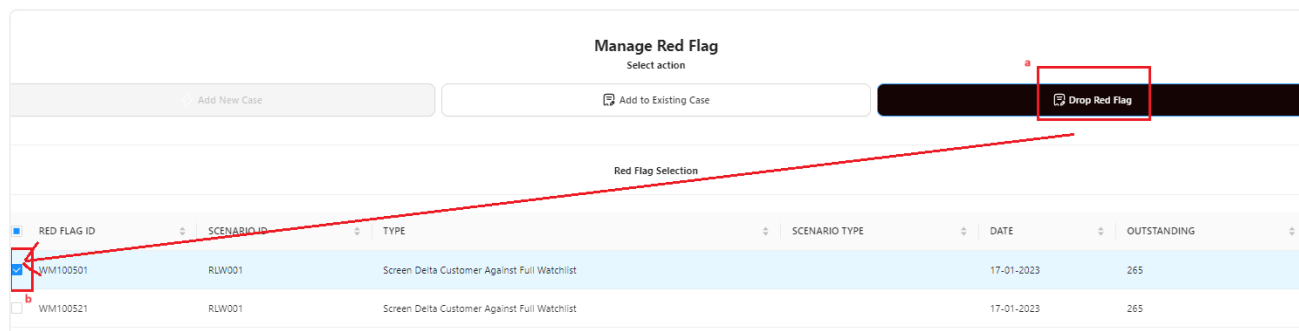

Figure 2.22: Red Flag Selection

2. Following that, the user may need to furnish a reason for dropping the red flag cases in the justification section below. If there are any attachments as supporting documents for the case, the user can upload them and, lastly, click the **"Save"** button.

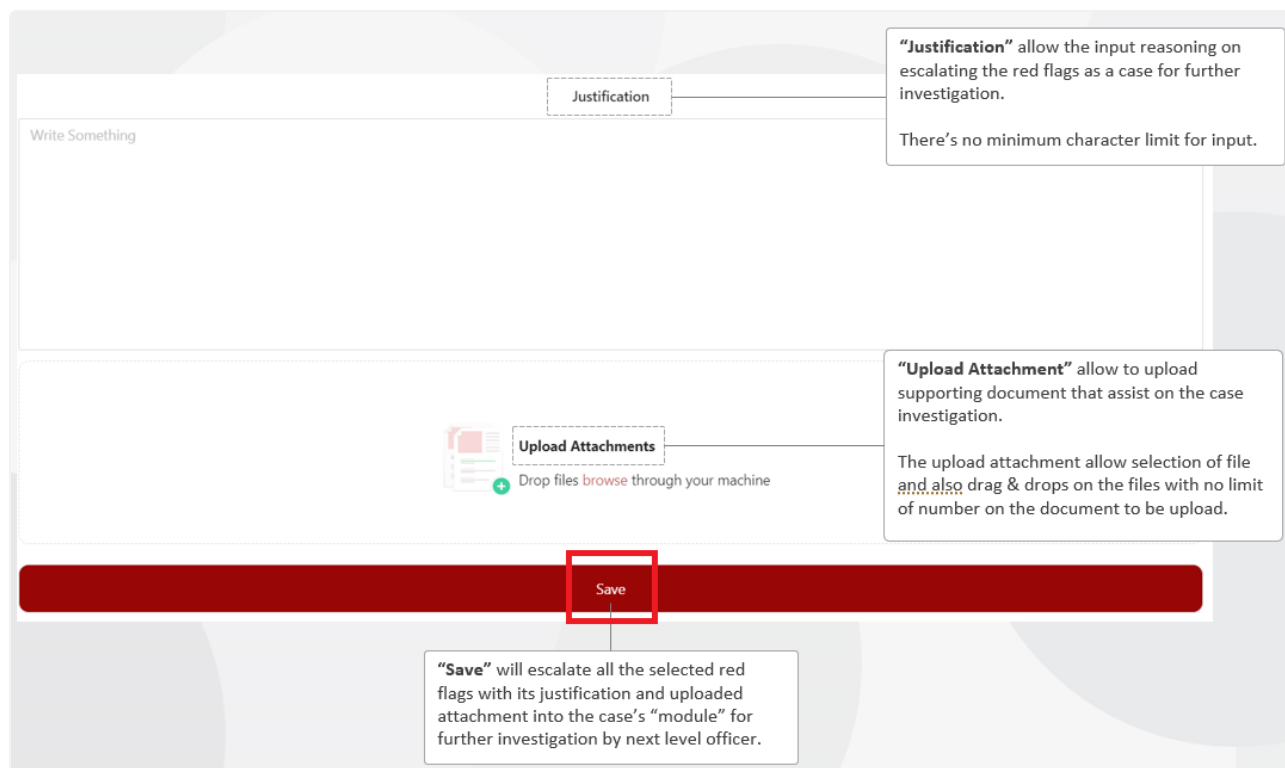

Figure 2.23: Escalate Red Flag Cases
