Document Control

Rev.	Date Revised	Section(s)	Description
1.0	05th June 2025	All	

Preface

1. Customer & TESS Definition

TESS Innovation Sdn Bhd is hereinafter referred as “TESS” of the other part in this document.

2. Document Confidentiality

This document contains information that is proprietary to TESS and The Customer. This document, or any part thereof, shall not be copied, reproduced, translated or reduced to any electronic medium or machine-readable form or disclosed to any third party without the prior written consent or authorization of TESS and the Customer.

3. Purpose of Document

The purpose of this document is to clearly guide user to perform day by day operation.

4. Intended Audience

- Project team from TESS
- Project team from The Customer

5. Document Control

This document is subject to change control. All changes to this document shall be documented and distributed as “Release Version”. It will consist of the following: -

- Full replacement of the document; or

- Full replacement of a section in the document; or
- An addendum to the document.

Each revision will be assigned with a unique “Release Version” number and date. All pages distributed within a Document Release Notice will have the appropriate Release Version and Release Date indicated.

6. Screenshots

All sample screens as attached are for the reader’s viewing purpose only. The actual screen displayed in the [iSE M.ai](#) system shall be based on the specification of The Customer’s as agreed upon.

7. Disclaimer

- All advice given or recommendations made in this document are made in good faith on the basis of the information provided and otherwise generally available or known to TESS at the time of writing.
- No advice given or statements or recommendations made shall be in any circumstances constitute or be deemed to constitute warranty by TESS as to the accuracy of such advice, statement and recommendations.
- Subject to the contents of the Supply of Software, Licensing and Service Agreement executed, TESS shall not be liable for any loss, expense, damage or claim arising out of the advice given or not given or statements made or omitted to be made in connection with this document.
- **This document is **subject to updates**. Please note that it may be revised periodically within the same version to reflect any changes.

8. Product Version

This document is based on product version 1.3. Any other product version may not be relevant to this specific document content and its information.

9. Abbreviation & Definitions

Abbreviation	Definition
ODD	On-going Due Diligence
EDD	Enhanced Due Diligence
AML	Anti Money Laundering

1. About Risk Profiling □ Risk Maintenance

2.4 Risk Maintenance Detail ▢ Case Info

The screenshot shows a 'Case Info' form with the following fields and values:

- 1**: Name (SANJIV KUMAR)
- 2**: Approval Status (In-Progress)
- 3**: Approval Sub-Status (Pending L1)
- 4**: Updated By
- 5**: Client No. (0000134682T)
- 6**: Master No. (0000134682T)
- 7**: Created on (16-Jul-2024 10:16am)

Figure 2.9: Case Information

In the user **"Update Detail Risk"** maintenance page, the display information is shown below:

#	Name	Description
1	Name	Display the client's full name.
2	Approval Status	Display approval status of the risk maintenance whether it is pending or approved.
3	Approval Sub-Status	Display the approval sub-status of the risk maintenance.
4	Updated By	Display the user's name who performed the risk maintenance.
5	Client No.	Display the client CIF ID or other golden unique number.
6	Master No.	Display primary number (CIF number, ID number, etc.).
7	Created On	Display the date that the risk maintenance was first created.

2.5 Risk Maintenance Detail □ Case Detail

2.5.1 How to view details

This section allows users to view the details of manual risk changes.

The screenshot shows a user interface with three tabs: 'Details', 'KYC', and 'Risk History'. The 'Details' tab is active. It contains three input fields. The first field, labeled 'Current Risk', has a red circle with the number '1' next to it and a red box around the label. The second field, labeled 'Manual Risk', has a red circle with the number '2' next to it and a red box around the label and the dropdown menu which currently shows 'High'. The third field, labeled 'Date Updated', has a red circle with the number '3' next to it and a red box around the label. The 'Date Updated' field is currently empty.

Figure 2.10: Details of Manual Risk Changes

The display information is in the table below:

#	Name	Description
1	Current Risk	Display the client's current system risk level.
2	Manual Risk	1. Display the manual risk level modified by user when creating the risk maintenance. 2. Allow user to update the manual risk level as maker. 3. Does not allow checker to update the manual risk level.
3	Date Updated	Display the updated date when modifying the manual risk.

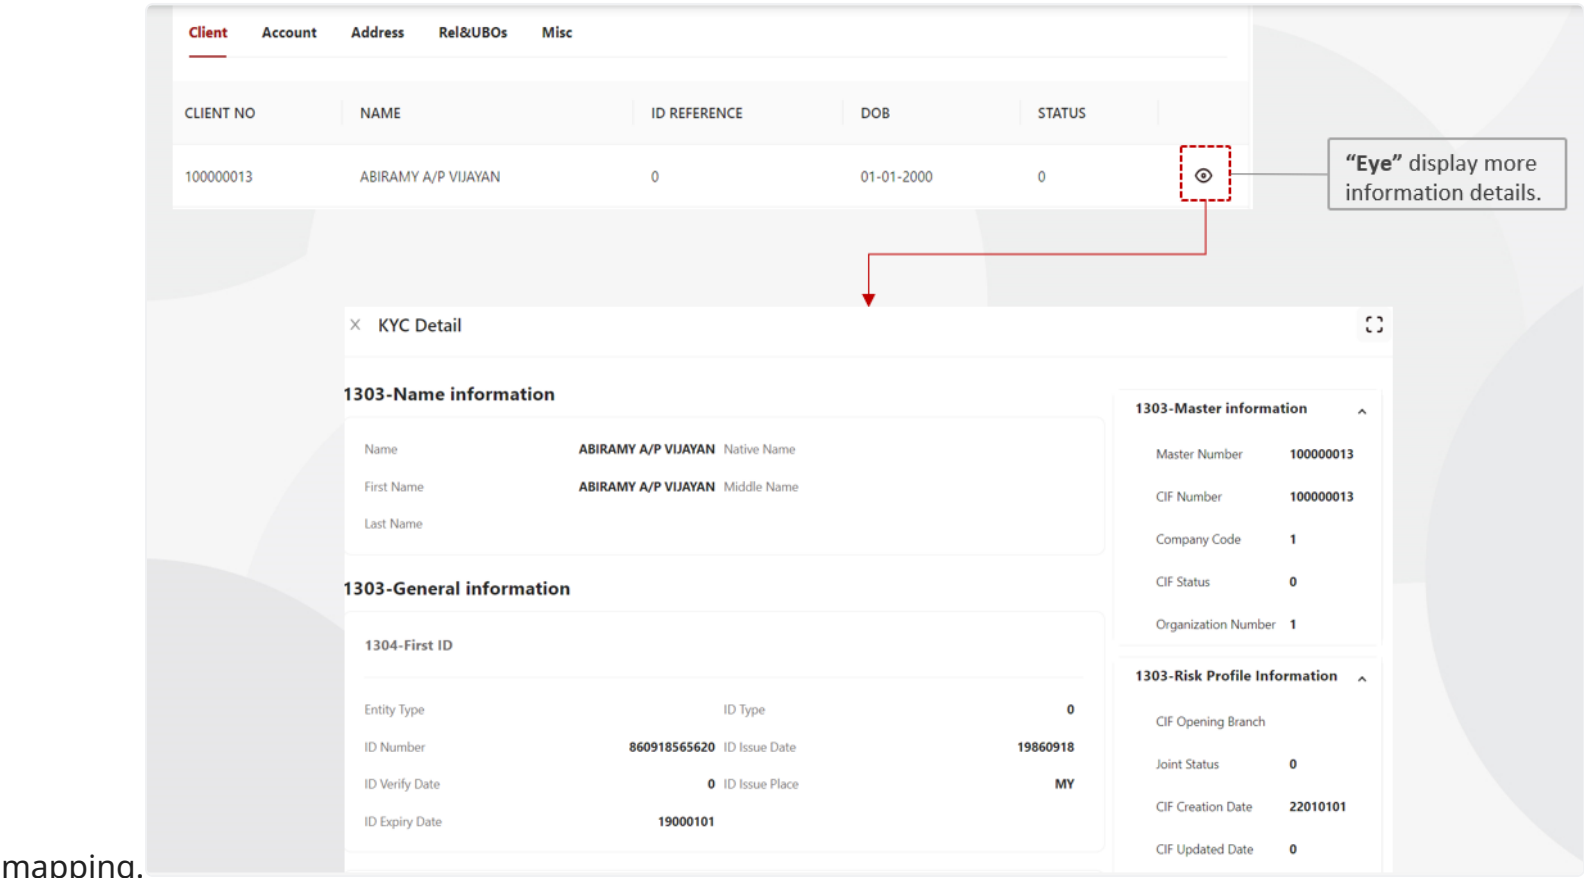

2.5.2 How to view KYC Details

This section allow users to view the client's information. The client information availability is **subject based by:**

- Data provided by the organization
- Data mapping configuration setup under General setting

Steps to view KYC Information:

The following are a few tabs of KYC details, shown and explained below as examples of configured data

mapping.

Figure 2.11: How to View KYC Information

1. To view KYC information, users can click on the **"KYC"** tab.
2. Under this tab, it displays five (5) panels whereby each one of them also contains their own set of information (refer to Figure 2.12 for further information):

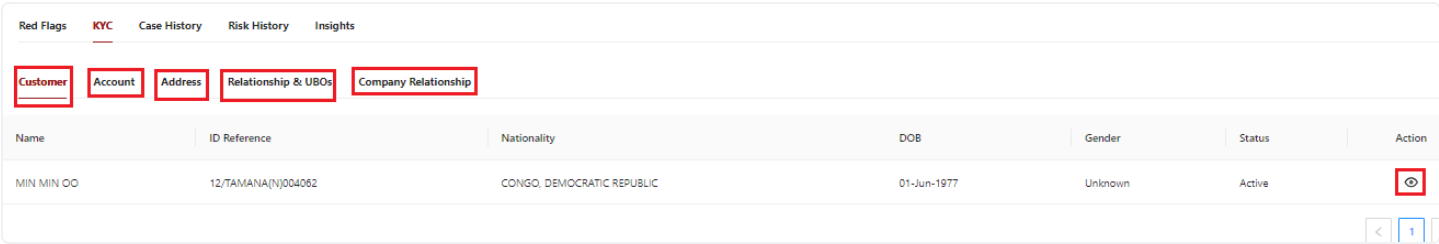

Figure 2.12: KYC Details

3. Only certain panels contain the **"Eye"** button to display more information regarding KYC details.

2.5.3 How to View Risk History Information?

This section allows users to view risk history information of the clients. The Risk History List below the graph is the overview list of each previous risk history and the details surrounding it.

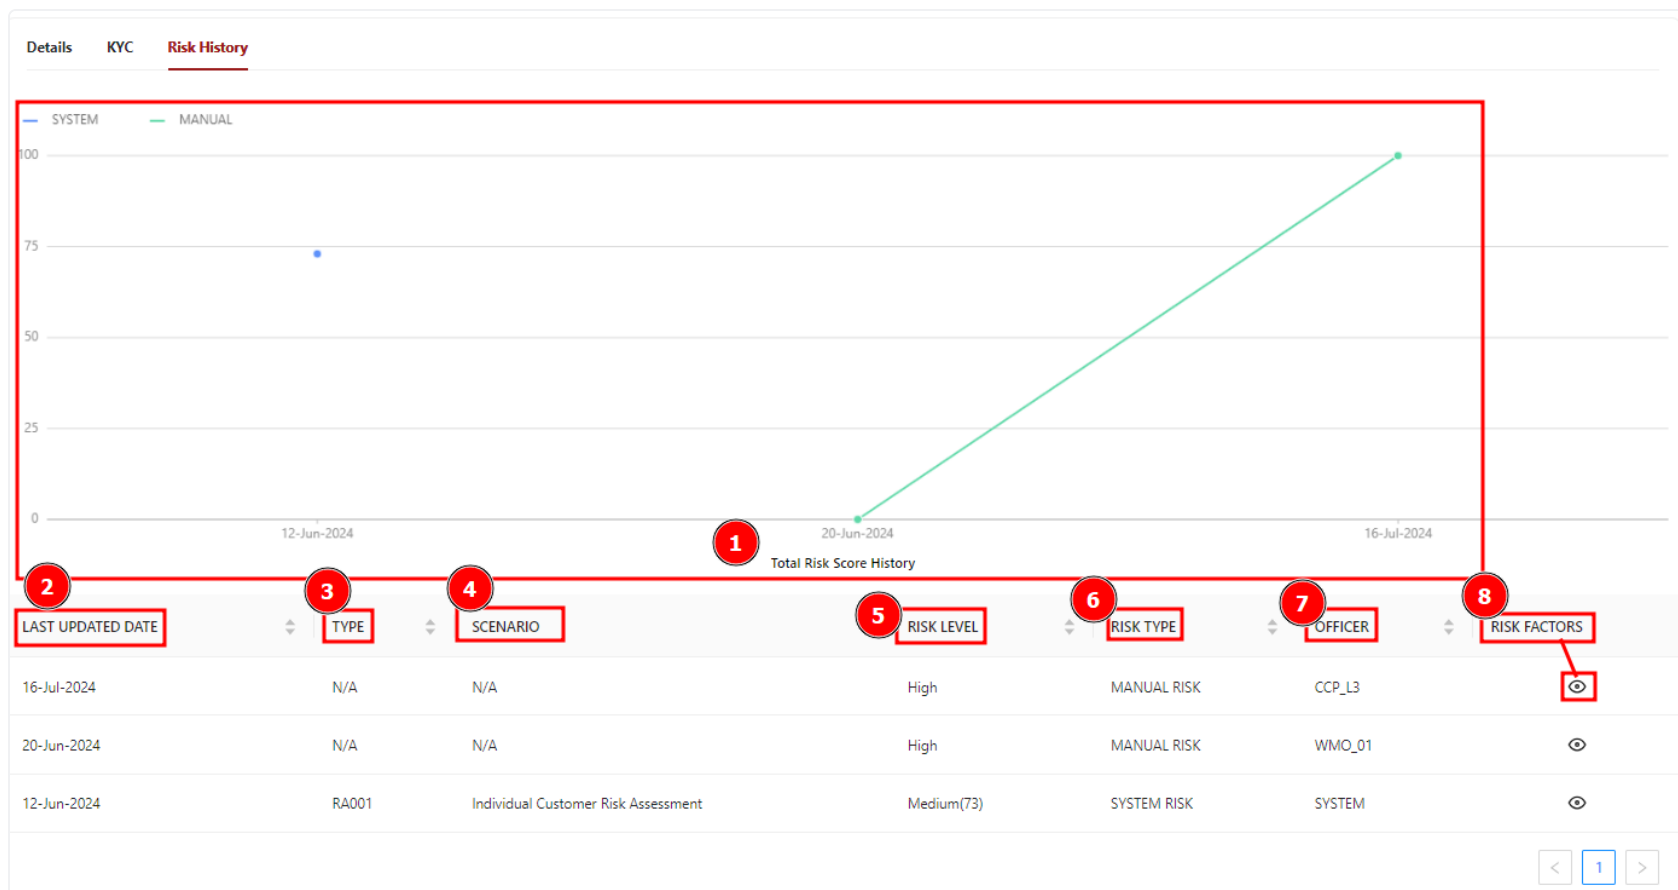

Figure 2.13: How to View Risk History Information

The information displayed is in the table below:

#	Name	Description
1	Total Risk Score History	A line graph displaying the overview of the client's previous risk records. The graph shall display the following: • Date • Risk Level • Risk Score
2	Last Updated Date	Display the date that risk history last changed.
3	Type	Display the method use to change the risk • System Rate • Manual Rate
4	Scenario	Display the description of the rule scenario.
4	Risk Level	Display the risk level of the client when last changed.
5	Risk Type	Display the method used to change the risk: 1. System rate 2. Manual rate

6	Officer	Display the final officer who managed the case.
7	Risk Factors	1. Display all the risk factors based by the configuration setup 2. In the pop-up, the following information should be displayed in the table: a. Updated b. Risk Level c. Type d. Total Score e. Employment f. Employment Score g. Nature of Business h. Nature of Business Score i. Nationality j. Nationality Score k. Residency l. Residency Score m. Income Range n. Income Range Score

2.6 Risk Maintenance □ Update Manual Risk

Disclaimer: These guidelines are general and may not reflect your institution's specific workflow.

This section outlines the steps for users to perform case management actions using the 'Dropdown' button configurable in Settings. The actions as such of Escalating, De-escalating, Drop case, Recommend case, Recommending STR, and others.

2.6.1 Steps on how to update manual risk

Navigate to Risk Maintenance detail: After the user has investigated across its tab in Risk Maintenance page, click the the dropdown manual risk to update the client's risk (a) as shown in the *Figure 2.14* below.

The screenshot shows the 'Risk Maintenance' interface. At the top right, there are 'Reject' and 'Approve' buttons. Below them, the 'Details' tab is selected. On the left, there are fields for 'Current Risk' (Medium) and 'Date Updated'. On the right, there is a 'Manual Risk' dropdown menu currently set to 'High'. A red box labeled (a) highlights the 'Manual Risk' dropdown menu.

Figure 2.14

2. Select Action: Users should choose the desired action (b) as shown in the figure 2.15 below based on the configured buttons set in Settings to apply the investigated case. Once performed any actions, the prompt message will pop up indicates it has successfully updated the risk.

The screenshot shows the 'Risk Maintenance' interface after an action. A green success message 'Successfully updated manual risk.' is displayed at the top left. On the right, there is a 'Level' dropdown menu set to 'L'. Below it, there are 'Reject' and 'Approve' buttons. A red box labeled (b) highlights the 'Reject' and 'Approve' buttons.

Figure 2.15

3. Observe Sub-status or status Changes: User can monitor any changes in the "Sub-status" or "Status" associated with the actions performed on the cases, as shown in the Figure 2.16 (c) below., indicates that the case has been closed.

The screenshot shows the 'Risk Maintenance' interface with the 'Case Info' section highlighted by a red box labeled (c). The 'Case Info' section displays the following information:

WIN NAING	
Approval Status	Approval Sub-Status
Approved	Approval Done
Updated By	CCP_L2
Client No.	000101030533
Master No.	000101030533
Created on	16-Jul-2024 10:25am

Below the 'Case Info' section, there is a 'Files' section with a 'Download All' button. The 'Details' tab is selected, and the 'Manual Risk' dropdown menu is set to 'Low'.

Figure 2.16

2.7 Risk Maintenance Detail □ Files

This Files panel located at the bottom left side of the page (under the Case Info section) where it allows users to add, or drag & drop attachment before escalating as optional process. This feature will allow multiple attachment at once and allow to download all the attachments at once.

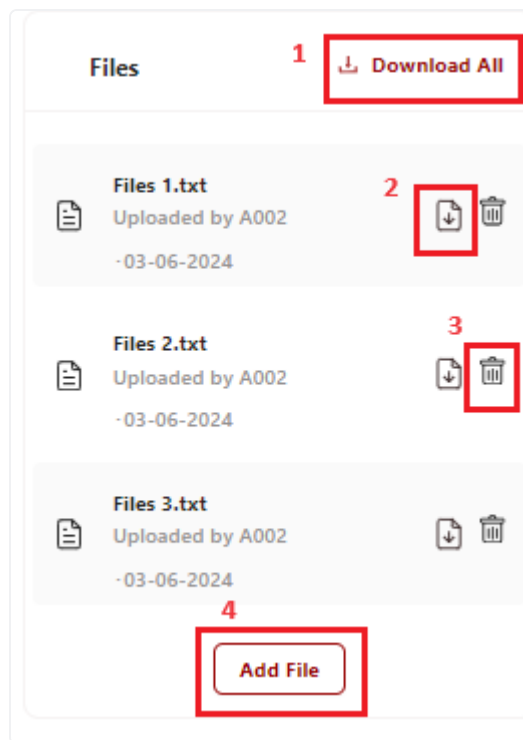

Figure 2.17: List of Files

The display information is in the table below:

#	Name	Description
1	Download All	Allows users to download all files simultaneously.
2	Download button	Allows users to download attachment file.
3	Delete	Allows users to delete attachment file.
4	Add File	Allow user to upload attachment.

2.8 Case Work Detail □ Activity Log

There is an Activity Log panel located at bottom of the page where it will capture and display all the activity that happened on the client's case:

Activity Log	
	
CM_L3 Reopened the case: Case level: 2 Assignee: Unassigned Justification:	27-05-2024 06:33pm
CM_L3 Updated case: Status: Close Sub-Status: L3 Approved STR	23-05-2024 10:59am
COS_L2 Updated case: Status: In-progress Sub-Status: L2 Recommend STR	23-05-2024 10:37am

Figure 2.18: Display of 'Activity Log' under Watchlist case list page

Such activity that will be captured and displayed :

1. Add New Comment (Justification)
2. ID
3. Last Active
4. Updated Exposure
5. Red Flag No.
6. Entity ID
7. Findings
8. Exposure
9. Status
10. Sub Status

***This parameter is configurable as not all clients will have the same options.**

2.8.1 Add Case Justification

There is "Add New Comment" button on the Activity Log panel above the activity list.
