Preface

1. Customer & TESS Definition

TESS Innovation Sdn Bhd is hereinafter referred as “TESS” of the other part in this document.

2. Document Confidentiality

This document contains information that is proprietary to TESS and The Customer. This document, or any part thereof, shall not be copied, reproduced, translated or reduced to any electronic medium or machine-readable form or disclosed to any third party without the prior written consent or authorization of TESS and the Customer.

3. Purpose of Document

The purpose of this document is to clearly guide user to perform day by day operation.

4. Intended Audience

- Project team from TESS
- Project team from The Customer

5. Document Control

This document is subject to change control. All changes to this document shall be documented and distributed as “Release Version”. It will consist of the following: -

- Full replacement of the document; or

- Full replacement of a section in the document; or
- An addendum to the document.

Each revision will be assigned with a unique “Release Version” number and date. All pages distributed within a Document Release Notice will have the appropriate Release Version and Release Date indicated.

6. Screenshots

All sample screenshots as attached are for the reader’s viewing purpose only. The actual screen displayed in the [iSEM.ai](#) system shall be based on the specification of The Customer’s as agreed upon.

7. Disclaimer

- All advice given or recommendations made in this document are made in good faith on the basis of the information provided and otherwise generally available or known to TESS at the time of writing.
- No advice given or statements or recommendations made shall be in any circumstances constitute or be deemed to constitute warranty by TESS as to the accuracy of such advice, statement and recommendations.
- Subject to the contents of the Supply of Software, Licensing and Service Agreement executed, TESS shall not be liable for any loss, expense, damage or claim arising out of the advice given or not given or statements made or omitted to be made in connection with this document.
- **This document is **subject to updates**. Please note that it may be revised periodically within the same version to reflect any changes.

8. Product Version

This document is based on product version 1.3. Any other product version may not be relevant to this specific document content and its information.

9. Abbreviation & Definitions

Abbreviation	Definition
ODD	On-going Due Diligence
EDD	Enhanced Due Diligence
AML	Anti Money Laundering

Overview of ODD Case Workflow

1. About Client Profile □ ODD Case Workflow

About: Each user will have cases created from the Portfolio to investigate suspicious activities. Users can view details, perform investigations, and raise an STR if the client is deemed suspicious.

1.1 Apps Process Flow to Manage ODD Case Workflow

Figure 1.0: Apps Process Flow to Manage ODD Case Workflow

The figure above describes in general the case workflow features and function.

1. Each client is based on their master number and primary number (CIF number, ID number or unique identifier, etc.).
2. The case workflow list consists of two filtering tabs:
 - a. **My Cases** - Only displays cases assigned to the logged in user.
 - b. **All Cases** - Displays all cases available in the organization.
3. The case workflow table has a "**Columns**" button which allows users to choose which columns to display and which not to.

2. ODD Case Workflow

2.1 ODD Case Workflow □ Case Workflow List

2.1.1 How to View ODD Cases List?

This section outlines how users can view ODD cases list under Client profile module.

Steps to View ODD Cases List:

Figure 2.0: How to View ODD Cases List

1. In this section, users can click **"My Cases"** tab to view all the onboard cases list picked up or reassigned to the user themselves.
2. Users can click **"All Cases"** tab to view all the onboard cases list in the organization.
3. If users want to filter columns of cases, click **"Columns"** tab to filter the searches.
4. If users want to include risks that are already closed in the onboard case together with the rest of the cases in the organization, click **"Show Closed"** tab.
5. If users want to filter values inside of onboard cases, click **"Filters"** tab to filter the searches.
6. If users want to export onboard case list as an Excel file, users can click the **"Exports"** tab.

Figure 2.3: Display of general info panel located at the top of Case Workflow List page

The figure above explains each of the buttons and search functions at the Case Workflow List page screen:

#	Name	Description
1	Case workflow info	Displays the general information about the cases:
2	Sorting button	Click to sort based on ascending/descending format for each table's columns.
3	Search bar	Accepts user input to be searched for in database.
4	Columns	To show/hide columns of portfolio list of tables as desired.

5	Show Closed / Show Open	Allow users to display cases when click in the options of: • Show Closed : Display the list of closed cases • Show Open : Display the list of open / in progress cases
6	Filters	To search any information related to the table's column data. • Can combine multiple data column using AND • The filtering should display the item description instead the operator type. • Condition for filtering item type: =, >, <, >=, <=, <>
7	Action button	Allow the user to update the case and perform an investigation to escalate the case.
8	Pagination	• Can display 10/20/50/100 records of the client's portfolio per page. • Can Click the button to search for the next or previous page of records.

2.2 Case Workflow List □ Case Workflow Detail

2.2.1 How to View ODD Cases Workflow Information?

This section outlines how compliance users can view Ongoing Due Diligence (ODD) case workflow information under Client profile module.

Steps to View ODD Cases Workflow Information:

Figure 2.4: How to View ODD Cases Workflow Information

1. **Details:** Allows users to view the details of all clients' Ongoing Due Diligence (ODD) details of a case.
2. **KYC:** Allows users to view the client's information.
3. **ODD History:** Allows users to view the previous Ongoing Due Diligence (ODD) follow-up results.
4. **Risk History:** Allows users to view any past risk changes history built on the client's portfolio.
5. **Insights:** Allows users to view the client's past history of each account transaction performed.

Figure 2.5: Display of 'Case Info' under ODD Case List page

The general case info panel on the left side of the page. The information displayed is in the table below:

#	Name	Description
1	Outstanding Days (OS Days)	Display total days of the red flag is open and outstanding.
2	Full Name	Display the client's full name.
3	Case Status	Display the final status of the case.
4	Sub Status	Display the final sub status of the case.
5	Case ID	Display module case primary key ID number. Each module is

		unique with prefix.
6	Assignee	Display the user's name who are investigating the case.
7	Client No.	Display the client CIF ID or other golden unique number.
8	Master No.	Display the primary number (CIF number, ID number, etc.).
9	Created at	The date that the case first created and escalate for review.
10	Rework button	- Only available for escalated cases. Allow user to de-escalate the case to rework on the case information. - Can be configured whether the workflow can rework case under Setting – OM: Case Template.
11	Reassign button	Allow user to save the reassign case to a different assignee.

2.3.1 How to Rework and Reassign Case?

This section outlines how users can rework and reassign cases under Client profile.

Figure 2.6: How to Rework and Reassign Case

2.3.2 Why do we need to Rework and Reassign Case?

Reworking and Reassigning cases are common practices to ensure the effectiveness and efficiency of the compliance process. Further explanation will be displayed below:

Rework

1. **Error Correction:** To correct errors or false positives generated by automated AML systems.

2. **Enhanced Investigation:** To conduct a more in-depth investigation or analysis of a suspicious activity.
3. **Quality Assurance:** To ensure that the compliance process is effective, and decisions are accurate.
4. **Regulatory Compliance:** To address cases that become relevant due to new information or regulatory updates.
5. **Timeliness:** To meet time-requirements or deadlines.
6. **Skill Development:** To provide training and skill development opportunities for compliance officers.
7. **Auditing and Oversight:** To review and assess previous decisions for compliance with policies and regulations.
8. **Lack of Information:** The information given by clients is incomplete and/or unclear.
9. **Attachments:** Uploaded attachments are unclear and/or obscure.

Reassign

1. **Workload Distribution:** To evenly distribute the caseload among compliance officers.
2. **Risk Management:** To prioritize high-risk cases and allocate resources effectively.
3. **Expertise Matching:** To assign cases to specialists or investigators with the right expertise.
4. **Resource Optimization:** To make sure that resources are allocated efficiently.
5. **Timeliness:** To ensure cases are reviewed and resolved within the required timeframe.
6. **Training and Skill Development:** To provide exposure to different aspects of AMLA for skill development.
7. **Auditing and Oversight:** To review and assess the decisions made by compliance officers in light of institutional policies and regulatory requirements.
8. **Assignee Availability:** There are no assignees working a case.

2.3.2.1 Rework Pop-up Screen

Rework Pop-up Screen

The information display in the Rework pop-up screen:

Figure 2.7: Rework Pop-up Screen Information Display

Explanation of the attributes displayed in the Rework Pop-up Screen:

#	Name	Description
1	Case ID	Display the module case primary key ID number.
2	Current Assignee	Display the user's name who are investigating the case.
3	Current Case Template & Workflow	Display the current case template & workflow used by the user.
4	Rework details	1. Location - Allow to select the location to rework. 2. Case Template & Workflow - Allow to select the case template & workflow to filter the specific's user case template. 3. Assignee - Allow to select user list based on the case template & workflow

5	ID	Display the new assignee's ID.
6	Name	Display the new assignee's name.
7	Email	Display the new assignee's email address.
8	Last Active	Display the new assignee's last active date.
9	Justification	Allow user to comment/justify reasoning of de-escalating the case for rework purposes.
10	Update button	Allow and confirm to rework the case to new assignee.

2.3.2.2 Reassign Pop-up Screen

Reassign Pop-up Screen

The information display in the Reassign pop-up screen:

The screenshot shows a reassign pop-up screen with the following elements and annotations:

- 1**: Title bar "Assignee for ODD30535" with a close button (X).
- 2**: "Current Assignee" label above the value "A002".
- 3**: A large red box enclosing the reassignment options section, which includes:
 - Section header: "Reassign this case. Search below for alternatives:"
 - Label: "Select a location" above a dropdown menu showing "BSN - CPI BANDAR PENAWAR".
 - Label: "Select case template & workflow" above a dropdown menu showing "Template 102 - Level 2 ODD - Level 2".
 - Label: "Select new assignee" above an empty dropdown menu.
- 4**: "ID" label.
- 5**: "Name" label.
- 6**: "Email" label.
- 7**: "Last Active" label.
- 8**: "Justification" label above a text input field with placeholder "Write something...".
- 9**: "Update" button at the bottom center.

Figure 2.8: Reassign Pop-up Screen Information Display

Explanation of the attributes displayed in the Reassign Pop-up Screen:

#	Name	Description
1	Case ID	Display the module case primary key ID number.
2	Current Assignee	Display the user's name who are investigating the case.
3	Reassign details	1. Location - Allow to select the location to rework. 2. Case Template & Workflow - Allow to select the case template & workflow to filter the specific's user case template. 3. Assignee - Allow to select user list based on the case template & workflow
4	ID	Display the new assignee's ID number.
5	Name	Display the new assignee's name.
6	Email	Display the new assignee's email address.
7	Last Active	Display the new assignee's last active date.
8	Justification	Allow user to comment/justify reasoning of de-escalating the case for reassigning purposes.
9	Update button	Allow and confirm to rework the case to new assignee.

2.4 Case Workflow List ☐ Review or Reopen Closed Cases

2.4.1 How to Review Closed Cases?

In the Case Workflow Detail page, users are given a navigation button to review closed cases as shown in the figure below.

Steps to Review Closed Cases:

Figure 2.9 How to Review Closed Cases

1. This button option can be found on the top right of the Case Workflow Detail page.
2. If users click on the **"Review"** button, a review case pop-up screen will appear.
3. This section allows users to review cases that have been closed to see the quality of the investigation.
4. To review a case, users can add comments or justify in the empty section given before submitting reviews.
5. If user has completed reviewing a case, click the **"Submit"** button to save it into the system for other users to see the quality of the investigation.
6. The users cannot use any action features in the page except viewing the five (5) tab information and commenting/justifying on the case. This can be configured whether the user can review cases under Setting – OB: Case Template.

2.4.2 How to Reopen Closed Cases?

In the Case Workflow Detail page, users are given a navigation button to reopen closed cases for further investigation as shown in the figure below.

2.4.2.1 Reopen Case

Figure 2.10: Reopen Case

The display information is displayed in the table below:

#	Name	Description
1	Reopen to role level	Display the workflow level and reopen to which workflow level.
2	Select a location	To allow user to filter branch location.
3	Select a new assignee	Display the user's name that will investigate the case once reopen.
4	ID	Display the new assignee's ID.
5	Name	Display the new assignee's name.
6	Email	Display the new assignee's email address.
7	Last Active	Display the new assignee's last active date and time.
8	Justification	Allow user to comment / justify reason of reassigning case.
9	Reopen button	Allow to confirm reopen.

Steps to Reopen Closed Cases:

Figure 2.11: Reopen Case

1. This button option can be found on the top right of the Case Workflow Detail page.
2. If users click on the **"Reopen"** button, a reopen case pop-up screen will appear.
3. This section allows users to reopen cases that have been closed to re-investigate the case.
4. To reopen the case, the users need to select on **"reopen to Role Level"** as desired to.
5. After that, they need to select a **"location"** for the case to re-investigate.
6. The user can select a new or existing assignee for the re-investigation case on **"Select a new assignee"** button.
7. The information details of the assignee will be display down below. Users are required to add comments or justify in the empty section given before submitting reviews.
8. If user has completed fill in the details, click the **"Submit"** button to save it into the system for other users to see the case are being open & in-progress for investigation.

2.5 Case Workflow List □ ODD Details

The section allows users to view the details of Ongoing Due Diligence (ODD) generated.

The screenshot displays a form titled 'Details' with tabs for 'KYC', 'ODD History', 'Risk History', and 'Insights'. The 'Details' tab is active, showing six numbered fields:

- 1 Commencement:** 28 May 2024
- 2 Aging ODD (Days):** 352
- 3 Next Review:** 28 May 2025
- 4 Follow Up Status:** Pending Follow Up
- 5 Last Updated:** 11 Jun 2024
- 6 Reason:** Pending Reason

Figure 2.12: ODD Details

The display information is shown in the table below:

#	Name	Description
1	Commencement	The date that ODD is generated.
2	Aging ODD (Days)	The total days of the ODD is open and outstanding.
3	Next review	The date that ODD needs to complete be review before next renewal date.
4	Follow up Status	The follow up status of the ODD (Default - pending reason).
5	Last Updated	The date that ODD last review and updated by user.
6	Reason	The reason review of the ODD.

2.6 Case Workflow List ☐ KYC

This section allow users to view the client's information. The client information availability is **subject based by:**

- Data provided by the organization
- Data mapping configuration setup under General setting

2.6.1 How to View KYC Information?

The following are a few tabs of KYC details, shown and explained below as examples of configured data mapping.

Steps to view KYC Information:

Figure 2.13: How to View KYC Information

1. To view KYC information, users can click on the **"KYC"** tab.

Under this tab, it displays five (5) panels whereby each one of them also contains their own set of information (refer to Figure 2.13 for further information):

2. Only certain panels contain the **"Eye"** button to display more information regarding KYC details.

2.6.2 KYC Details □ Customer

This section outlines how the compliance user can investigate and view client KYC detail information while investigating the transaction red flag.

2.7.1 How to View ODD History Information?

This section outlines how users can view ODD history information under Client Profile.

Figure 2.19: How to View ODD History Information

1. This section allows users to view the clients as any past ODD history build on their portfolio.

Figure 2.20: ODD History

The display information is shown in the table below:

#	Name	Description
1	Case ID	Display the module case primary key ID number. Each module is unique with prefix. Client profile management : CPM[Number]
2	Date created	Display the date that the ODD first created and escalate for review.
3	Status	Display the final status of the case.

4	Sub-Status	Display the final sub status of the case.
5	Date Completed	Display the date that the case is completely investigated.
6	Assignee	Display the final person who manages the case.
7	View	Display the collective investigation activity surrounding the cases. This will be a pop-up windows overlay displaying the case activity.

2. After clicking on the **"View"** button, it will trigger a pop-up screen that displays the following information:

Figure 2.21: ODD History Pop-up Screen

The display information is shown in the tables below:

• **Case Details**

#	Name	Description
1	Created At	Display the date that the ODD first created and escalate for review.
2	Updated At	Display the date that the ODD is last reviewed and updated by user.
3	Officer	Display the final person who manages the case.

4	Status	Display the final status of the case.
5	Sub Status	Display the final sub status of the case.

• ODD Details

#	Name	Description
1	Commencement	Display the date that ODD is generated.
2	Next Review	Display the date that ODD needs to complete the review before next renewal date.
3	Last Updated	Display the date that ODD last reviewed and updated by user.
4	Aging ODD	Display the total days of the ODD is open and outstanding.
5	Follow-Up Status	Display the follow-up status of the ODD. Default to pending follow up.
6	Reason	Display the reason review of the ODD. Default to pending follow up.

• Activity

Display all the activity of the specific client form the point ODD generated up to the next cycle.

• Case Attachment

Figure 2.22: Case Attachment

- Users are able to download all the files by clicking "**Download All**".
- Otherwise, users can download individual files by clicking on the Download button.

2.8 Case Workflow List □ Risk History

2.8.1 How to View Risk History Information?

This section allows users to view risk history information of the clients.

Figure 2.23: How to View Risk History Information

1. This section allows users to view the client have any past risk changes history build on their portfolio.
2. The details are separate into two sections:
 - a. The first section (Risk History Summary) is a graph displaying the overview of the client's previous risk records. The graph shall display the following:
 - Date
 - Risk Level
 - Risk Score
 - b. The second section (Risk History List) is the overview list of each previous risk history and the details surrounding it.

Figure 2.24: Risk History Chart

3. This section allows users to view the risk history table about transactions.

Figure 2.25: Risk History Details

The information displayed is in the table below:

#	Name	Description
1	Last Updated Date	Display the date that risk history last changed.
2	Type	Display the method use to change the risk • System Rate • Manual Rate
3	Description	Display the description of the rule scenario.
4	Risk Level	Display the risk level of the client when last changed.
5	Risk Type	Display the method used to change the risk: 1. System rate 2. Manual rate
6	Assignee	Display the final person who managed the case.

2.9 Case Workflow List ▯ Insights

2.9.1 How to View Insights Information?

This section outlines how users can **"View Insights"** information under **"Client profile"**.

Figure 2.26: How to View Insights Information

4. The details are separate into three sections:

- a. The first section (Overview) is a graph displaying the overview of the client accumulated transactions since integrated with the application. This section is divided into two parts:
 - Graph Overview
 - Overview Details
- b. The second section (Transaction History) is the overview list of client-specific account transactions since integrated with the application.
- c. The third section (Link Analysis) is the graph node of the client's linkage with other entities or clients to identify any possible connection between them.

Steps to View Insights Information:

- 1. In the **"Insights"** tab, users are able to view the overview and transaction history of all the client's account.
- 2. In the **"Transaction History"** tab, users can navigate to view further **"Transaction History Details"** by clicking on the **"Eye"** icon.

2.9.2 Insights Overview

Figure 2.27: Insights Overview

The information displayed is in the table below:

#	Name	Description
1	Credit Information	1. Display the total accumulate credit count transaction for all the client no. and account no. 2. Display the total accumulate credit amount transaction for all the client no. and account no.
2	Debit Information	1. Display the total accumulate debit count transaction for all the client no. and account no. 2. Display the total accumulate debit amount transaction for all the client no. and account no.
3	Net Activity	Display the total accumulate transaction on both credit & debit for all the client no. and account no.

4	Graph	1. Display the total accumulate credit amount transaction for all the client no. and account no. 2. Display the total accumulate debit amount transaction for all the client no. and account no. 3. Display the total accumulate credit count transaction for all the client no. and account no. 4. Display the total accumulate debit count transaction for all the client no. and account no. 5. Default the graph view to transaction amount. 6. Allow to change graph view to transaction count. 7. Default the graph view to monthly. 8. Allow to change graph view to: a. Daily b. Weekly c. Monthly d. Yearly 9. Default the graph view to show both credit & debit amount. 10. Allow to change graph view to show either: a. Credit b. Debit c. All 11. Allow to collapse and hide the graph chart panel. 12. User colour code: a. Use colour code "FF4747" for credit. b. Use colour code "2DD4BF" for debit.
---	-------	--

2.9.3 Insights ▯ Overview Details

This section allows users to view the client accumulated transactions since integrated with the application.

Figure 2.28: Insights Overview Details

The information displayed is in the table below:

#	Name	Description
1	Client No.	Display the client CIF ID or other golden unique number.
2	Account No.	Display the client account no. or unique number.
3	Date	Display the date that transaction is performed.
4	Instrument	Display the instrument of the transaction method.
5	Amount	Display the amount that transaction is performed: 1. Use colour code "FF4747" for credit 2. Use colour code "2DD4BF" for debit
6	Direction	Display the direction of transaction flow either is credit (deposit/incoming) or debit (withdrawal/outgoing).
7	Location	Display the location of where the transaction happens.

2.9.4 Insights □ Transaction History

1. This section allows users to view the client accumulated transactions since integrated with the application.

Use colour code "2DD4BF" for debit
5	Export	Allow to export transaction history table as Excel file.
6	Table	Display a list of transactions in the selected account's transaction history, including the following information: client number, account number, date, instrument, amount, direction, and location.

2.10 Case Workflow List Draft Report

2.10.1 How to Submit Draft Report Manually?

This section outlines how compliance users can submit draft reports manually.

Steps to Submit Draft Report Manually:

Figure 2.31: How to Submit Draft Report Manual

1. The update case detail page allows users to draft report such as Suspicious Transaction Report (STR). The draft report type to display can be configured under **Setting – TM: Rule Parameter** while the workflow can draft a report can be configured under **Setting – TM: Case Workflow**.
2. The draft report allows users to add a new report by clicking on the "+ Add New" if the case does not have any drafted reports before. The draft report displays the following information:

CASE ID	DATE CREATED	CREATED BY	ROLE LEVEL	STATUS	
TMC30324	21-May-2024	A001	1	Draft	
TMC30324	21-May-2024	A001	1	Draft	

Figure 2.32: Draft Report

The information displayed is in the table below:

#	Name	Description
---	------	-------------

1	Case ID	Display the module case primary key ID number. Each module is unique with prefix.
2	Master No.	Display primary number (CIF number, ID number, etc.).
3	Client No.	Display the client CIF ID or other golden unique number.
4	Name	Display the client's full name.
5	Assignee	Display the user's name who are investigating the case.
6	Created At	Display the date that the case first created and escalate for investigation.
7	Report History	Display the report history and details.
8	Edit icon	Display the report history details to update draft Report.
9	Eye icon	Display the report history that has been drafted.

3. The draft report will have four (4) tabs. Each tab display and mapping information can be configured under **Setting – General: Regulator Mapping**.
4. During the updates, users can "+ **Add New**" records on the "**Client**", "**Account**", and "**Transaction**" information.

2.11 Case Workflow List ☐ Manage ODD

2.11.1 How to View & Manage ODD Information?

This section outlines how users can view and manage Ongoing Due Diligence (ODD) information under Client profile.

Steps to View & Manage ODD Information:

1. If users click on the **"Update Case Detail"** page, there will be a **"Manage ODD"** button next to the **"Approve"** button located at the top right of the page.

The screenshot shows a 'Manage ODD' modal dialog box overlaid on a 'Details' page. The dialog box contains the following fields:

- Commencement:** ddim/yyyy
- Next Review:** ddim/yyyy
- Last Updated:** ddim/yyyy
- Aging ODD:** Value
- Follow Up Status:** Please Select
- Reason:** Please Select

Annotations on the right side of the dialog box explain the fields:

- "Aging ODD"** display total days of the ODD is open and yet to be complete
- "Follow Up Status"** display the follow up status of the ODD case while allowing selection of status when user receive updates from their client.
- "Reason"** display the reason review of the ODD case while allowing selection of reason when user update the case.

Annotations at the bottom of the dialog box explain the underlying data fields:

- "Commencement"** display the commencement date of current ODD period either based by apps generate date or client CIF creation date
- "Next Review"** display the next review date based on current ODD period
- "Last Update"** display when the ODD was last reviewed and updated by user

The background page shows the 'Details' tab with the following fields:

- Commencement:** ddim/yyyy
- Next Review:** ddim/yyyy
- Last Updated:** ddim/yyyy
- Aging ODD:** Value
- Follow Up Status:** Value
- Reason:** Value

The 'Manage ODD' button is highlighted in the top right corner of the 'Details' page.

Figure 2.35: How to View and Manage ODD Information

- 2. Under the **"Manage ODD"** pop-up screen, users can view and update information about commencement, next review and last updated date, aging ODD, follow up status, and reasoning of the case review.
- 3. Once the user is done managing ODD, click on the **"Save"** button to save any changes made in the system.

2.11.1.1 Steps on how to manage ODD

The update case detail page has Manage ODD feature that allows user to manage ODD updates. This allows users to further updates the ODD after communicating with their respective client.

SYSTEM

Created new red flag for risk level change as below:

Current Risk Level: Low

Figure 2.37: EDD Form panel

- If the EDD is enabled, the case detail update page will feature and EDD options that allow:
 1. Draft and submit EDD form. The form is used to collect additional supporting details regarding the client when the client is at a high-risk level or a true positive for STR.
 2. Allow user to update the EDD form if an existing EDD form has been created. The display information will be based by the latest EDD creation date.
 3. The EDD form comes with different status where;
 - i) Pending - EDD is mandatory and submission is required
 - ii) Done - EDD has been filled out.

- If there is any manual change on client's risk level based on the risk maintenance, the EDD form should be generated as well for review and fill in.

2.11.2.1 How to submit /update ODD EDD Form (optional/ mandatory):

1. Click (a) EDD form button as shown in the Figure 2.38 below to add new EDD form or update an existing one under the corresponding case.

Figure 2.38: EDD form button

2. User will then see a pop-up EDD form. Fill in the required details such as **Birth date, Gender, Nationality & Currency** as shown in the Figure 2.39 below. Dates can be selected from the pop up calendar.

The image shows a pop-up form titled 'Enhanced Due Diligence (EDD)'. At the top, it displays the name 'THEIN AUNG' and the status 'Pending on 11/06/2024, 11:48am'. Below this, there are four input fields: 'Birth Date' with a 'Select date' placeholder and a calendar icon; 'Gender' with a dropdown arrow; 'Nationality' with a dropdown arrow; and 'Currency' with a dropdown arrow. At the bottom center, there is a red button labeled 'Save'. A red 'X' icon is in the top right corner of the form.

Figure 2.39: EDD form

3. After completing the form, click the 'Save' button. The EDD form will be closed, indicating that it has been saved under the case. The status will be change to 'Done' to signify successful submission.

Figure 2.40: EDD form submission

Note: User can still edit the EDD details after submission.

2.12 Case Workflow ▯ Case Management Actions

Disclaimer: These guidelines are general and may not reflect your institution's specific workflow.

This section outlines the steps for users to perform case management actions using the 'Dropdown' button configurable in Settings. The actions as such of Escalating, De-escalating, Drop case, Recommend case, Recommending STR, and others.

2.12.1 Steps on how to perform case management actions (Dropdown button)

1. **Navigate to Case Workflow:** After the user has investigated across its tab in Case Workflow page, locate and click the 'Dropdown' button positioned at the top right corner of the page as you can see (a) on the Figure 2.41 below.

Figure 2.41

2. Select Action: From the dropdown menu, users should choose the desired action based on the configured buttons set in Settings to apply the investigated case.

Figure 2.42

3. Observe Sub-status or status Changes: User can monitor any changes in the "Sub-status" or "Status" associated with the actions performed on the cases, as shown in the *Figure 2.43 (b)* below.

Figure 2.43

4. Closure: Once all necessary actions has been completed, the case will proceed to the final level and be closed.

Figure 2.44

5. **View the updated sub-status:** Users can view the updated changes for the case under the "All Cases" tab, as shown in Figure 2.45 (c) below.

Figure 2.45

S

2.12.2 Steps on how to Bypass Escalation

To allow users to bypass escalation in a case management system within a multi-level workflow when necessary, follows these steps to skip level approval.

Note: This can be configured whether the workflow can enable bypass escalation under Setting – Onboard: Case Template.

1. **Navigate to Case Workflow:** After the user has investigated across its tab in Case Workflow page, locate and click the 'Dropdown' button positioned at the top right corner of the page as you can see (a) on the Figure 2.46 below.

Figure 2.46: Case management action button

2. A pop-up window will appear with the option of "Bypass Escalation" as shown in Figure 2.47 below. Click the checkbox labeled (b) to proceed with bypass escalation of the case to another level. If user decide not to bypass escalation, user may untick the bypass escalation checkbox.

Figure 2.47: Bypass escalation

3. After confirming the option to bypass escalation, the system will navigate to the next pop-up screen where user can select which workflow level to escalate to, as shown in Figure 2.48 (c) below.

Figure 2.48: To choose level to escalate case

4. Once you have selected the desired workflow level, user will return to the confirmation pop-up window to bypass escalation. Click "Save" to confirm the action or "Cancel" to abort the process.

Figure 2.49: Confirmation escalation case

5. The system will auto-refresh indicates that the case has been escalated to another level. User can see the updates on the "Sub-status" under "All Cases" on the Case Workflow page or in the "Activity Log" under the case itself, as shown in the Figure 2.50 below.

Figure 2.50: Activity Log Bypass case

2.12.3 Steps on how to Pickup Case at any level

This section outlines the steps on how user can pickup case that is still unassigned at any level to investigate.

- This actions is being performed is due to few reasons such as urgency cases, outstanding cases, and others.
1. User click on any "Unassign" case listed on the "All Cases" workflow page. Click "Edit" button as shown in Figure 2.51 (a) on action column to investigate the case.
